### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sun Lehmann Re. #58,338 on 9/11/09.

The application has been amended as follows:

#### **In The Claims**

Claim 1 line 6 following "50 wt %" replace "." with --,--.

Claim 1 line 10 delete "optionally,".

Claim 1 line 14 replace "les" with --less--.

2. The following is an examiner's statement of reasons for allowance: Appeal conferees agreed that the only significant questions of patentability were raised by the double patenting rejection over claims of 10/779,505 and the art rejection over Asahara et al US 5,532,319. The double patenting rejection is determined to inappropriate given the lack of overlap between "less than 15 wt %" claimed herein and "from 15 wt %" claimed in the copending application. This same rejection in the copending case 10/779,505 has been withdrawn on appeal. Claims presented herein are further considered patentable over Asahara et al given the lack of disclosure of suggestion to use "less than 15 wt %" of the radial block copolymer. Column 7 lines 7+ discusses the amounts of this component. Here it is disclosed that a minimum of 20 wt % is to be

Art Unit: 1796

used and more preferably 30-70 wt %. As such the claimed amount is not taught or suggested and the claims are patentably distinct.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter D. Mulcahy whose telephone number is 571-272-1107. The examiner can normally be reached on Mon.-Fri. 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
